

Dear FCC Commissioners:

My name is Edward Saint Pe', and I am a former licensee of WJNS 92.1 FM and WDXO 92.9 FM, and current owner and General Manager of WXVO-TV Channel 7 in Ocean Springs, Mississippi.

As a long-time radio and television broadcaster, I am in full support of the FM Class C4 and 73.215 proposal, MB 18-184, currently being considered by the FCC.

It is long past time to address the needs of small broadcasters, and the C4 and 73.215 proposals would benefit many independent stations across the country.

I would also note that both of my former stations, WJNS 92.1 FM and WDXO 92.9 FM, would be eligible for an upgrade to Class C4 status. I would have really appreciated the opportunity for the increase in power at the time, as I'm sure the current owners do now.

Please do not wait to adopt the full MB 18-184 proposal. I personally know lots of broadcasters who need this relief.

Sincerely,
Edward Saint Pe'
